# REPAIRS & SERVICING PROCESS

# REMS

for Professionals

## ENQUIRY

Call or email for servicing and repair pricing and to let us know you are sending in your tool or jaws.

## SEND

You can either send us your tool or jaws or visit us at our dedicated premises or organise a collection with our plant hire team.

## ASSESSMENT

We will visually inspect your tool/jaws and we will run diagnostics to check for any faults

## QUOTE

We will email you a quote and follow up with a phone call to check you are happy to go ahead. If you would like us to continue please confirm by email or phone

## SERVICE OR REPAIR

Once we have received confirmation from you, we will carry out the repair. If we have the parts in stock, we will confirm the date we can return your tool. If we don't we will let you know as soon as they are in

## TEST AND FINAL INSPECTION

After we have completed the repair or service we will complete final tests and inspections before we return your tools

## RETURN

We will call you to arrange for you to collect the tool or for us to deliver it to you
